Quick Link (QL & QLM) connectivity accessories provides an easy, fast, modular and cost-effective solution whenever "plug-in connection" is preferable.

QL Series is compatible with DS2100N, DS2400N, DS4800, Matrix 210™, Matrix 410™ and Matrix 450™.

QL300/500 and QLM500/600/700 link 1D/2D code readers to the Power Supply, External Trigger, IDNET™ network, Digital I/O and Communication connections including interface to Serial, Ethernet, Ethernet/IP, Profibus and Profinet.

QL100/150/200 provides an ID-NET™ "T" connector. This is the most effective way to build the ID-NET™ network by passing through power and network’s signals. Service port connection (QL150) and tap power connection (QL200) are optionally available.

**HIGHLIGHTS**

- Plug-In connection
- QL500: Serial-to-Ethernet TCP/IP, Ethernet IP, Modbus conversion with RJ45 connector
- QLM500: IP65, rugged metal, all M12 connectors, double Ethernet port (avoid external switches), Ethernet TCP/IP, Ethernet IP protocol
- QLM600: IP65, rugged metal, all M12 connectors, PROFIBUS double port
- QLM700: IP65, rugged metal, all M12 connectors, double PROFINET port (avoiding external switches)
- Back-up and Restore function (QLM500/600/700 and QL500)
- Quick set-up of ID-NET™ networks with different layouts in modular way, reducing installation time and cost (by cables and T-connectors)

**APPLICATIONS**

- Automated warehousing
- Conveyor sorting
- Picking systems
- Automated shop floor and General Manufacturing
- Items and parts tracking
- Process control and Packaging
